

1. Who Can Apply?

1.1 MCMA welcomes organisations that have a relevant role in, or contribution to, the carbon-market ecosystem.

1.2 Prospective members should be able to demonstrate relevant activities, expertise or capabilities in areas such as:

- Carbon-market demand and supply
- Carbon project development
- Carbon-market financing and investment
- Carbon-credit trading and marketing
- Carbon exchanges and intermediaries
- Verification, validation and ratings
- Carbon-market technology and MRV
- Sustainability and professional advisory services
- Research, training and capacity building

2. What Does MCMA Consider?

2.1 MCMA evaluates applications against the following criteria:

a) Carbon-Market Relevance

The organisation should have a genuine and relevant role within the carbon-market ecosystem.

b) Compatibility with MCMA

The organisation should demonstrate alignment with MCMA's objectives and contribute meaningfully to the development of Malaysia's carbon-market ecosystem.

c) Potential Contribution

2.2 Applicants may contribute through areas including:

- **Membership Support** — supporting membership engagement and expanding MCMA's industry network.
- **Formation of Subnational Committees** — supporting regional or state-level industry engagement and initiatives.
- **Training and Development** — contributing expertise, knowledge and resources to capacity-building initiatives.
- **Strategic Communications, Events and Roadshows** — supporting industry outreach, events, communications and stakeholder engagement.
- **Policies Related to the Carbon Market** — contributing industry and technical perspectives to carbon-market policy discussions and development.
- **Nature-Based Solutions (NBS) Project Development** — supporting the development of nature-based carbon projects and solutions.
- **Technology-Based Project Development** — supporting technology-based carbon projects, emissions reduction solutions and related technologies.

2.3 Applicants may indicate the areas in which they are able to contribute as part of the membership application.

3. Corporate Standing & Due Diligence

3.1 Applicants are required to provide relevant corporate information and to undergo the applicable KYC and due diligence screening.

3.2 Information Required

Prospective members should provide:

- Completed membership application form
- Company profile
- SSM Certificate
- Latest audited report
- Company logo
- Relevant information on the organisation's carbon-market activities and areas of contribution

3.3 Additional information may be requested where required for the assessment.

4. Membership Application Process

1

Expression of Interest

Submit an expression of interest to MCMA.

2

Application & Documents

Complete the membership application and provide the required supporting documents.

3

Assessment & Due Diligence

MCMA assesses the organisation's carbon-market relevance, compatibility and potential contribution, together with the required KYC and due diligence screening.

4

Approval

Successful applicants are shortlisted and submitted for the relevant MCMA approval.

5

Membership Completion

Following approval, the applicant completes the applicable membership payment and documentation requirements.

6

Onboarding

New members are onboarded and added to the relevant MCMA communication and membership channels.
